Having received several very important improvements viz.:—

Morrison's wonderful little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or frail tooth, with the most exquisite exactness, and without danger of fracturing the most delicate enamel. Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burr again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth, comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic niceness that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly four teen years, and have administered over

20,000 Times,

2,140 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand,

NEW ADVERTISEMENTS

FIGHTING THE CONCEALED POISON. Strike at the source, not at the symptoms. Remember that symptoms are the evidence of nature's conflict with disease. They tell us that our animal powers are fighting the concealed poison. Aid and reinforce them with that genial and powerful restorative, Bristol's Sarsaparilla, and the result cannot be doubtful. No disorder, not organic, can resist such an alliance. The enemy is in the veins. There it is great degergent will find it, and thence expel it. That done, the cough that indicates consumption, the sores that denote the presence of scrofula, the terrible suffering of body and mind which accompany a diseased stomach, and all unnatural condition of the bowels, disappear. This pure and potent vegetable and antiseptic tonic and alterative cleanses, regulates, and invigorates the whole internal organization, and the cure is complete. By the use of Bristol's Sugar-coated Pills at the same time as the Sarsaparilla, the stomach and bowels will be cleansed and strengthened, and the disease more speedily thrown off. cj..j22

SUFFERINGS OF IMMIGRANTS.

For the sake of humanity and the good name of the country it would be advisable if the authorities bestirred themselves to remedy the abuses that are so loudly complained of with respect to immigrants. The statement published last week by the Penguin passenger, of the sufferings experienced in immigrant steamers from Europe, caused a thrill of horror through our city. To-day we read a more terrible announcement in the *Libertad*, namely that 16 passengers were allowed to die of hunger in an island near Santa Fé, where they were placed in quarantine. The captain of the steamer Proveedor publishes a letter in his own defence, to the effect that he landed 300 immigrants at Marcelina island, as directed by the Governor of Santa Fé, to undergo quarantine, but first offered any of them a free passage back to Buenos Ayres if unwilling to land. In like manner he put ashore 70 on an island near the town of Paraná; and if his statement be correct there is nothing reprehensible in his conduct.

We would gladly suppose that the story of 16 persons dying of hunger under the circumstances mentioned by the *Libertad* was a mere fabrication; but unhappily it looks too like truth, seeing the apathy and neglect in the treatment of lazzaretto passengers both at Buenos Ayres and Montevideo. It is only a couple of years ago since an American died of hunger at Flores Island, and depositions were formally made to that effect. Some time later an ex-Minister of State published the most revolting account of the lazzaretto at the same island. As regards Ensenada we need say nothing, since Minister Alcorta has described the abominations he saw there last month, which induced the Board of Immigration to resign "en masse." The news of Marcelina island now fills the cup of iniquity to the brim, and it is time that a spontaneous outcry of Humanity should protest against these cruelties any longer.

The season is not half over, and we cannot feel sure that more dreadful sufferings and starvation are not in store for the thousands of immigrants arriving weekly from Europe. It is necessary to take immediate steps for the reception and support of the poor people, instead of casting them on uninhabited islands, like the passengers of the Proveedor.

It is not so much the Governor or Ministers of Santa Fe who are to blame, since their principal object is to prevent the importation of Cholera. Neither is President Sarmiento to be saddled with the entire responsibility, as he naturally supposes his Ministers will attend to such things. His Ministers, again, feel that as soon as 300 passengers are sent up the Paraná there is no need to think any more for them.

But the citizens of Buenos Ayres are to blame for the whole calamity, because they do not call a meeting at the Bolsa and appoint a deputation to the National and Santa Fé Governments to ask how long these barbarities are to continue?

We hear of Bolsa meetings when there is a crisis in the money-market.

We hear of Bolsa meetings for dredging the Riachuelo.

But when 16 human beings are said to have died of hunger at Marcelina island, there are no bowels of compassion for the survivors. Everybody says, that is the business of Government.

If the British public of B. Ayres had acted thus when we heard of 700 colonists perishing in Paraguay there is not a doubt that most of the poor people must have died of hunger. It is time now for Argentines to exhibit the same energy that the foreign resident of Buenos Ayres did regarding the Paraguayan sufferers, in vindication of outraged humanity and the honor of the country.

THE ILL-FATED IMMIGRANTS.

PARTICULARS OF THEIR DEATH.

Santa Fe, January 21st.

To the Immigration Committee,
Buenos Ayres.

The Proveedor arrived here on the 3rd inst, and by order of the Municipality and the Governor of Santa Fe she landed the immigrants at Carbajal island.

As soon as I heard this I waited on His Excellency the Governor, to enquire whether His Excellency would undertake to supply them with food.

His Excellency assured me that he would send them beef and salt. The same day I went to the agent of the Proveedor and begged him to supply the people with so many cattle daily out of those grazing on the island.

As I had received no reply from B. Ayres I proceeded on my own account to purchase biscuits and rice, which I sent to the island on the morning of the 5th, but as neither these supplies nor the beef reached the passengers till 5 p.m. the poor people had been two days without food, except some sheep and 'bichos' which they had killed.

They therefore died I may say of indigestion rather than hunger, as I sent them on two subsequent occasions supplies of biscuit, rice, coffee, sugar and soap.

Some 15 or 16 have died, some of the great heat and moisture, others of diarrhœa; but we did not know of their death till the 12 days quarantine was up.

The Doctor of the Municipality had never gone once to see them.

F. R. Gessler.

JOINT-STOCK BUILDING SOCIETY.

An Italian gentleman named Alessandro Ciovini has just published the prospectus of a Building Society with a capital of 900,000 patacons (say £180,000 sterling), for the principal purpose of constructing suitable Workmen's Buildings, where the artisans and industrial classes of our population will be able to obtain healthy and commodious habitations at the same rent that they pay at present for ill-ventilated and unwholesome quarters. The prospectus only tells us that the shares will be 30$f. each and bear a fixed interest of 6 per cent per annum, payable half-yearly, besides 70 per cent of all profits over and above from the working of the society.

Before ratifying the statutes of such a Company the Government ought to introduce a few clauses such as the following:—

1. None of these buildings to be erected within 15 squares of Plaza Victoria.

2. Before opening any such Buildings they must be personally inspected by four Municipales and the engineer of the Corporation.

3. The general plan to be, squares of small houses, without altos, with a plaza in the centre and a fountain.

4. Any tenant to have the right to buy his house by paying 10 per cent extra for ten years.

5. The Government to have a right to expropriate at 50 per cent over cost price, whenever they think the Company is making over 20 per cent per annum profit.

Mr. Ciovini's project on paper seems an improved System of Conventillos, for he says nothing about building in the suburbs, or against overcrowding, but treats the matter mostly from a lucrative point of view. We all know that Conventillos give from 24 to 36 per annum to the proprietors, and even on the most improved plan we are not unwilling that the Company should earn 20 per cent. But if we are to protect B. Ayres from constant epidemics the present Conventillos must be abolished, the sites expropriated by the Municipality and re-sold for private houses, and the Workmen's Buildings placed in the suburbs, on healthy and commodious conditions.

At the same time Mr. Ciovini and his friends might take a hint from Mr. Rom's new arcade in Calle Cangallo, by promoting the formation of others in the best thoroughfares in town. Those who have seen the Passage Jouffroi or other arcades on the principal Boulevards in Paris, or the grand arcade in Brussels, or that at Cologne, will have observed that they not only beautify the city in a remarkable manner, but form a great business centre and point of attraction. For example, as soon as the Prison is completed in Calle Santa Fe it would be easy to run an arcade through the Cabildo from Calle Victoria to Rivadavia, or knock down the Policia and run a Passage into Calle Florida; the shops on either side of the arcade would give a handsome rental. The same might be done from Calle San Martin, facing the new Provincial Bank, to Calle Victoria; it would cost say 300,000$fts. to buy 20 yards wide right through, and 200,000$fts. to build an arcade with 50 shops with room overhead, each renting at 80$fts., the whole thus giving 10 per cent. on the outlay.

Another suitable speculation would be to buy up a "cuadra" in any part of the town, knock down all the buildings, run a line of shops like Rom's arcade all round, leaving the centre for a plaza, with trees, seats, fountains, &c. The rent of 200 shops with rooms overhead would at a very moderate estimate of 40$f. each produce 100,000$f. per annum, equal to 10 per cent. on an estimated outlay of one million patacons, while the city would be immensely the gainer by having another plaza for the use of children and nursery-maids.

The extraordinary mortality of children in Buenos Ayres is probably owing to the want of plazas in the crowded districts. We want at least 6 new plazas, in such parts of the city as follows:—

Between Calles Belgrano, Venezuela and Peru.

Do. Calles Chile, Bolivar and Independencia.

Do. Calles Potosi, Piedras and Chacabuco.

Do. Calles Esmeralda, Piedad and Cangallo.

Do. Calles Temple, Suipacha and Cordoba.

Do. Calles Montevideo, Cangallo and Garantias.

Let the Municipality and such a Company as Mr. Ciovini's undertake to form one of the above plazas every second year: the investment as we have shown above will yield close on 10 per cent. besides the improvement to the city. The Legislature of course would have to grant the right of expropriation, as in the case of railways, and the value of the property to be fixed by two appraisers.

We want a Baron Haussmann sadly in Buenos Ayres, and as Mr. Ciovini's countrymen have already so much improved the architecture and comforts of our houses we should be glad to think that his proposed Joint-stock Building Company turned out a financial success and a benefit to our city.

MEETING OF THE SOUTH AMERICAN I ZINGARI CRICKET CLUB.

The inauguration of the above-named Club took place on the evening of the 19th inst., at Watson's Hotel, Belgrano; sixteen to twenty members present.

The proceedings of the evening were commenced by Mr. G. Menzies, seconded by Mr. G. M. Aitkens, proposing that Mr. J. L. Macrae be called upon to fill the chair, which proposition, being put to the vote, was carried nem con.

The Chairman, in a few appropriate words, acknowledging the honor which had been conferred upon him, then proceeded to say that the business of the evening was to elect a committee of management.

Mr. Traer proposed that Sr. Gomez, Juez de Paz of Belgrano, be elected Hon. President of the Club; seconded by Mr. G. Menzies.

Mr. Aitkens proposed, and Mr. W. White seconded, that Mr. Macrae be installed Vice or Acting President.

Mr. G. Menzies, seconded by Mr. T. Menzies, proposed that Mr. Walter White be elected Secretary.

Mr. Tolkein then proposed that Mr. Macrae should act as Treasurer as well as Vice President; seconded by Mr. Farran.

All these gentlemen kindly accepting their posts, the voting for a committee then commenced, and resulted as follows:

Messrs. H. T. Marshall, G. W. Aitkens, and T. Menzies.

The Chairman then proposed that a letter be addressed by the Secretary to Sr. Gomez, informing him of his election as Hon. President of the I Zingari S.A.; carried nem con.

The proceedings then closed with a vote of thanks to the Chairman, Mr. Macrae.

Sr. Gomez will be a most valuable acquisition to the Club. He is not only thoroughly conversant with our language, but understands a good deal about the game of Cricket, having played in former days, and, we believe, is a great enthusiast in all our athletic games.

We understand that this, like other local Clubs, is not raised out of any opposition to the mother one, viz., the B.A.C.C.; and it is a very good idea, we think, to start these local Clubs, always providing that they unite to meet a foreign foe, like Montevideo, E. Rios etc. But as these outside matches cannot, unfortunately, be easily arranged, on account of the great distances to be travelled, we think that these local Clubs will be the means of producing a friendly rivalry which will have the effect of greatly improving and keeping up the interest in one of Old England's finest games.

We therefore salute the S.A. I Zingari Club, and wish them every success in their coming battles.

The committee stands as follows for the season':

Hon. Pres., Sr. Gomez.

Vice-Pres. and Treasurer, Mr. J. L. Macrae.

Hon. Sec., Mr. Walter White.

And Messrs. H. T. Marshall, G. M. Aitkens, and T. Menzies.

LONDON LETTER.

(*From our Own Correspondent.*)

December 18.

I must refer you to a most interesting letter in the *Times* dated Rome, Dec. 7th, on the bill to be brought in by the Italian Government for "the regulation of the paper currency and the circulation of paper money." The bill has been received with great satisfaction by the Italian deputies and the public at large, and its details as given by the *Times* correspondent are worthy of attentive study by your financiers. The principal feature of the scheme is joining six banks as State Banks in partnership or 'consorzio,' which will have the privilege of issuing 'biglietti consorziali,' having a forced currency, and to the extent of 40 millions sterling. They will supply the treasury to this amount at the small annual interest of 0.50 cmes. per cent. The State bank notes will be white, and for various amounts as low as 50c. The Banks will have the privilege of issuing their own private notes, but they must be of another colour and not for less amount than 50 francs, so as to throw the State currency into the hands of the lower orders.

Our excellent ex-Consul in Rosario, Thomas J. Hutchinson, F. R. G. S., writes the following letter to the *Standard* of this evening:—

FRESH MEAT FROM ABROAD.

To the Editor,
Sir,

In your impression of Yesterday appears a paragraph on the above subject, in which you state that "the question of the importation of raw meat is in a fair way to be settled by the successful accomplishment of the task." This last-mentioned is realised by the importation of meat from Buenos Ayres preserved quite fresh since April last by a chemical process, which is at present a secret—and certified by consular seal. The meat in question is stated as capable of being sold in the English market at 6d a-pound, and yet give a fair profit. It is somewhat like a series of coincidents to ask you to look over the pamphlet which accompanies this on "Our Meat Supply from Abroad," for by it you will see that all you have stated has been demonstrated by me in the City of London at the end of 1870—the only difference being that the chemical process used in the meat exhibited in the latter case was no secret, and beef—such as that I have had tested here at the time indicated—can be sold at 4d a pound, and leave a profit (vide page 12). Mine came from Rosario, which is a few hundred miles above Buenos Ayres; and, like that from the latter place, was certified by consular seal to have been kept for beyond four months. When it was cooked at Simpson's Tavern, Bolt-court, off Cornhill, it was certified to by one of the gentlemen who tasted it, that "the problem of bringing unlimited supplies of animal food from distant countries will now prove to have been solved—the method being alike simple and inexpensive, and capable of being adapted under any circumstances." It was further added by the same authority, whom you may see described in the pamphlet (page 1), that "at the trial not the slightest flavour of any chemical or other artificial agent was detected." This occurred three years ago. So that, in meat curing, as well as in other matters, "history repeats itself."

I am, Sir,
Your obedient servant,
Thomas J. Hutchinson, F.R.G.S.
98 Talbot-road, Bayswater, W.,
Dec. 17.

I have had the pleasure of receiving a visit from the Rev. Kenelm Vaughan, a member of the South American Club, and well known in Buenos Ayres and other parts of South America as an active and benign missionary of the Catholic church. Mr. Vaughan leaves England for Panama and the West Coast soon after Christmas. From many kind friends in South America he received during his previous visit to that country generous aid in his special work of publishing a translation of the Scriptures in Spanish. Mr. Vaughan has written an interesting pamphlet to disabuse the minds of many, even within the fold of the church, of the erroneous impression that the propagation of the Scriptures in the Vernaculæ is contrary to Catholic canons.

I have seen the proofs of part of the Spanish New Testament which Mr. Vaughan is now preparing for publication. He hopes to have many thousand copies before long. They will be sent after him to Valparaiso; and when his work is in full operation there he will pass over the Cordilleras into the green plains of your 'land of promise.'

The Testament is of a very convenient size and is abundantly provided with explanatory notes, chiefly from the Douai version; it contains references, and an historical and chronological index, table of Epistles and Gospels for the year, and an epitome of Christian doctrine. It will have 21 illustrations, which, as works of art, are of a high class, besides frontispiece and maps. The cost will be about eighteen pence.

The Tichborne case is losing its interest since the Luie episode, who has confessed his delinquency and said he "would never have done such a thing if he had not been *put up to it.*" These words have roused the cry of conspiracy. Who are the conspirators? Mr. Whalley? Lord Rivers?

The Court is not now so crowded, and the mob's reception of the claimant as he enters his brougham is much less demonstrative. Dr. Kenealy battles on with his three points—Firstly, that whoever he is he is not Orton. Secondly, that he is Sir Roger Tichborne, and the third point relates to the much injured lady in the case.

PARIS LETTER.

(*From Our Own Correspondent.*)

December 18th.

It would be a godsend for Ministers if they could point to a single instance of anarchy in the country, or even of disturbances, outside what they themselves provoke. Trailing, since May last, their coat on the ground, not a Republican has appeared to tread on its tails. The pure Legitimists promise to do all the fighting necessary, and believing that they have been 'sold' by the Orleanists, they are not disinclined to combat every one. As was predicted, the Committee of Thirty have no intention to draft a Constitution for the Republic for seven years, or for seven seconds; the aim will be to produce a nondescript that can be applied to all systems of Government known or unknown. In itself this will be something new, possessing the merit or curiosity, but, unhappily, not of utility. It is daily becoming more and more desirable for the Cabinet to state what it means to do with France; what is its end, its programme. MacMahon, as President of the Republic, cannot be converted into a screen behind which intrigues can be carried on in favor of Henri V. or the more cunning Orleanist Republic. The Imperialists upbraid the Cabinet with inability to equal the Empire in its centralization schemes and coercion. In any event, matters are again accumulating for another crisis.

As there are 1500 Communists whose accusations have not yet been sifted, probably this fact may account for the rumor that a partial amnesty will be granted. The act would hardly come up to the 'better late than never.' The sympathisers with the imprisoned understand the political situation extremely well.

The ice and snow question is the most important one of the moment—how to relieve the excessive poverty, when work cannot be undertaken, owing to the general want of confidence, is the pressing problem. It is suggested that the Assembly vote funds to allow the poor to take their bedding out of the pawn office. The charity, though after the model of the ex-Empire, would be a boon; later it will be a necessity.

The practice has commenced of costermongers selling meat in the streets. The butchers can hardly believe their eyes. It is women that generally have charge of the innovation, and they sell at four sous per pound less. They are prohibited from vending within the precincts of the regular markets, which, like Legislative Assemblies, have their excluding zones. Next week cooked meats, hot and cold, are similarly announced for sale, like baked apples. Indeed, household operations are seeking a home in the streets.

In the ordinary marriages in France it is the invited guests to the ceremony who pay each their quota for the banquet. Occasionally the bridegroom displays extravagance by honoring the bill. On Saturday last a clerk was married. He had no money to settle for the entertainment, over and above 100 francs, and set off to find it, leaving his wife and his mother for security. If mothers-in-law could but be so pledged beyond redemption!

The new Foreign Secretary, the Duc Decazes, is being well discussed. One side quote his speeches and maxims in favor of all the liberties, all the 'immortal principles;' and the other side allege that such quotations are of no greater value now than a stale joke—have only been used in a Pickwickian sense. The truth is, the new Minister is opposed to the Duc de Broglie's coercive projects; and, to widen the breach, the opposition journals flatter Decazes and contemn his colleague. These tactics ever succeed with Frenchmen: sowing the seeds of jealousy produces the natural fruit, and humoring the vanity ensures success. This consolation remains, that no sooner is one Ministry formed than its successors are named. Venice intends founding a portrait gallery of her Ministers since three centuries ago; the Louvre would be hardly capacious enough to contain those of similar French officials for a like time.

The Sixth of December is ever a happy day for Young France; it is the anniversary of St. Nicholas, the patron saint of infants, who is fêted not only to-day, but also on Christmas Eve. The Saint is also the patron of Russia. It is only on Christmas Eve that Otto is able to supply all his young customers with new shoes or old ones mended, to place before the chimney, and it is then that St. Nicholas descends, at the witching hour of night, to deposit his annual gifts for those children who have been good during the previous twelve months.

The coal question promises to be solved, and if the same can be done for meat, housekeepers can enjoy a little of the sleep of the just. Some Frenchmen have tried with success the plan of the Belgian peasant, that of mixing three parts of small coal up with one of rich earth, and watering the mixture with one sous worth of common carbonate of soda dissolved in a pint of water. The paste forms a capital banking fuel. If the discovery could dispense with the coal, the Belgian peasant would deserve to be ranked among the benefactors of society.

M. Gambetta and others, when solicited by persons recommended to their charity, reply by handing their card, on which is printed that they will do all that they possibly can after instituting due enquiries. The applicants never appear a second time.

'Potheen' is the name of an Irish whiskey, distilled from grain, and in the most private manner, so as not to pain the excise officers. A Frenchman translates the Hibernian nectar, 'eau-de-vie de pomme de terre de la Verte Erin,' recalling a little the stupendous length of a first class German jaw-breaker.

This is the gastronomic season in Paris, and indeed a hungry man even could not complain after admiring the quantity and variety of our food supplies in the shop-windows. There are to be seen two turtles, each over a good yard square, reposing on a bed of paper shavings, displaying not the slightest love, but an excellent appetite for salad and strawberries, which fruit is reported to impart a delicious fragrancy to the flesh. Aldermen, take note. The various Lyceums now hold also their annual banquets—that is, the graduates of such institutions. They are the happiest reunions that take place in France; where men become boys again, and where the world for a few hours is tossed aside. Be the graduate poor or rich, high or low, be his politics white, red or green, he is welcome in presence of the equality of souvenirs.

——Dear is the schoolboy spot.
We ne'or forget, though there we are forgot.

EDITOR'S TABLE.

The same old, wretched story about the European mails yesterday: steamer in before breakfast time; mails on shore at lunch hour; and the rest of the day potter, potter, potter in the Post-office and of it, and no mails even at 4 o'clock. We went fifty times to the G.P.O. before that hour, and cross-examined the clerks, but could get nothing, not even a *Cork Examiner*. Oh! for the new Post-office!

A blessed squirt of Rain fell about noon yesterday and mitigated the heat. The fall was so miserable, however, that it was barely worth the trouble which the Clerk of the Weather took to send it. In Rosario, on Tuesday, they had a rousing thunderstorm and lots of 'agua.' Pity it did n't come the day before to save Mr. Barbè's coffin shop. More rain is badly wanted in many parts of the camp, particularly in the South.

We received yesterday an interesting letter from a Montevidean friend on the subject of Workmen's Cottages, and also refer to the matter in our leading columns. The renewed vitality of the epidemic may induce the authorities to turn their attention to this vital subject. It is only *may* however. When the disease goes away with the summer, we'll all fall back into the 'mañana' and Turkish apathy which so pre-eminently distinguishes us in this quarter of the universe. 'Allah il Allah.' It 's all 'Kismet.' Whatever is to be will be.

The terrible 'denouement' of the playing at quarantine in Santa Fe excited much indignation in town yesterday. The captain of the Proveedor is not in the least to blame, as he offered all the passengers a free trip back to Buenos Ayres, or to land them on the island. Unfortunately for themselves they elected to land. Nothing can excuse the conduct of the duffers in authority in Santa Fe, who left the poor people to starve. The provincial Governments up the country have made themselves 'sumamente' ridiculous by their quarantine proceedings lately, but this Santa Fe business is a most disgraceful tragedy.

We read in a Rio paper that the Minister of Marine has ordered an examination of the island of Marajo, at the mouth of the Amazon, half of which island belongs to the State, for the purpose of ascertaining its fitness for extensive plantations of the Eucalyptus tree, which, besides being of very rapid growth, furnishes excellent timber for ship-building and other purposes, and is also declared to have the property of drying up swamps and of neutralizing malaria with its balsamic exhalations. If the report be favorable H. Ex. will at once order a large quantity of seed sufficient to establish large forests on the island, which is about half the size of Ireland. This is a good hint for the Plate where, there are so many islands going to rot and ruin.

A hospitable proprietor of land at the Boca interviewed us yesterday to express his admiration of our advocating the canalization of the Boca. In his mental optic he already sees the La France, the Boyne, and the Ibis landing emigrants, shipping specie, and loading hides in the Boca Docks, as easily as they might at Liverpool; and in a fit of enthusiasm he made a perfectly safe promise to fill our best cellar to bursting with Eugene Cliquot's Champagne on the day his hopes are realized. May he life till the day he's buried, this generous gentleman.

The flue steamer Lacydon sails to-day with a good cargo. She has fine passenger accommodation also.

We publish a Paris Letter to-day. Instruction and amusement are alike to be gained from a regular perusal of these Letters, which, "though we say it as shouldn't," excel by a long chalk the drowsy missives sent from Paris to the papers of the United Kingdom, the worst of all being those to the London dailies. We have hunted dozens of dictionaries to find the French equivalent for 'potheen' (illicit Irish whiskey, and very good stuff indeed) but in vain; our correspondent solves the question in his letter published to-day.

We had a levee of estancieros at the Court yesterday to talk over the prodigiously fine sheep exhibited at the Smithfield Cattle Show. Our visitors' mouths watered visibly over the merits of the 16½ arrobe sheep, and we had to give them a glass of Hesperidina to set them right. Now, gentlemen, read the following about the cattle and cabbages at the same show, and your mouths will become Niaguras:—

"The seedsmen exhibited remarkably fine vegetable produce—Messrs. Carter, longest mangolds, some weighing 50 lbs per root. Messrs. Gibbs & Co. 125 varieties of potatoes, and cabbages weighing up to 72 lbs each. Messrs. Sutton, red mangolds weighing up to 56 lbs per root, and taken from a crop weighing 70 tons per acre; also yellow mangolds weighing 35 lbs each.

"A steam engine using straw, cotton stalks, &c. as fuel, was shewn; one ton of good straw is equivalent to 6 cwt. or 27 arrobes of coal.

"Mr. Hutrens' shorthorn Suffolk ox weighs 24¼ cwt, or 110½ arrobas live weight.

"The Queen's prize, Devon steer, 3 years 1 month old, weighs 13¾ cwt.

"Mr. Barton's Devon steer, 1 month older, weighed 14½ cwt.

"Mr. Lloyd's Hereford ox weighed 20¾ cwt; last year the same animal, 12 months younger, weighed 17½ cwt.

"Last year an ox 3 years 5 months old weighed 18½ cwt; now he weighs no less than 23½ cwt."

Well! Well! Our native colleagues have lately fallen into the reprehensible habit of joking, 'faute de mieux' wherewith to fill their lean and lanky columns. Last week they made an innocent Public swallow any number of Santa Fe colony eggs, ('de canard boiteux') and yesterday they started a 'lark' about cholera having broken out amongst the emigrants under Mr. Wilcken's care at Palermo. Our excellent Lord Mayor, Mr. Emily Bunge, fell headlong into the insidious trap, and forthwith addressed a fatherly remonstrance to Mr Wilcken on the impropriety of his concealing so serious a catastrophe from the Municipal authorities; at the same time expressing a hope that it (the concealment, not the cholera) would not occur again. Now the whole story is pure Bosh. There has been no cholera whatever amongst the emigrants at Palermo, and Mr. Wilcken has addressed a general invitation to the Public and the Press to pay his camp and its inmates a visit and judge for themselves of the rude health enjoyed by everyone there. Don Juan F. Cavanillas, the able Manager of the Asilo, is at the camp, and will do the honours to visitors, as well as supply them with servants, 'peones' &c. if they so desire.

The land granted to the Central Argentine Railway in Cordoba is at long last to be handed over to the Company. The National Government has ordered its Commissioner to look alive over the matter and have it settled at once.

An exciting trial of speed between a 'gaucho' mounted on a Pampa steed and an early train from town took place on Sunday last at Moron. The rider picked up the train when it had attained a fair impetus after leaving the station, ran a neck-and-neck race with the engine for ten squares, and won gallantly by half a length. An immense crowd of 'paisanos' had assembled to witness the struggle, which had been for some time arranged, and on which they had heavy wagers. They cheered their victorious comrade and his plucky steed to the echo, and 'stood' to him hospitably in the neighbouring 'pulperia.'

From half-past seven o'clock on Tuesday evening till two o'clock yesterday afternoon only nine deaths from cholera were reported at the Municipality. This is a great improvement on the reports of Tuesday. There is, we are sorry to say, a marked tendency in some quarters to keep up the ratio of deaths from cholera. We know of two fatal cases returned lately as cholera which were no more that disease than they were gout, or tic doloreux. The impression is becoming very general that the sooner the services of the parish doctors at $10,000 m|c. monthly are dispensed with the better. Excepting the reputed cholera cases daily returned, the mortality is very much below the average, and even counting those cases remains within it.

A big Building Company, to operate in the city and suburbs, has been formed by some well known local parties, and will shortly be launched. The capital is 900,000 pats, and the object the purchasing of land and erection of dwelling-houses in the city and environs. There ought to be room for this company. House rent for the poor classes, and those in higher social position, but living on fixed salaries, is dear out of all proportion to their incomes; and a millstone round the neck of many respectable young families. The new company will meet with universal sympathy; as to support, that depends on the money market, though the shares (only 30 pats each) are within the reach of all.

More Progress. The cable from Mercedes, B O, to Fray Bentos ditto, was successfully laid yesterday. We saw the first telegram. More luck to you, Mr. Lamas. Anyone and everyone anxious to learn the price of Beef Extract can wire to Mr. Giebert today.

Another colleague, an evening customer!. Stop the 'Editorial Bus,' and make room for the *Telegrafo*, son and heir of the redoubtable *Pampa*! A good evening colleague is badly wanted in town, as the three or four existing ones are not worth a real the arrobe, except for waste paper and the cholera returns. What is wanted from you, Mr. *Telegrafo*, is news, news, and more news, leaving politics to your matutinal progenitor. This do and thou shall live and flourish.

His Holiness the Pope has appointed 12 new Cardinals, most of them Archbishops and Bishops 'in partibus infidelium.' The Archbishops of Paris and Cambrai have both fallen in for a red hat.

Mr. Lindmark, C. E., of the National Engineer Department, has got six months leave, and is going home to visit his native hills; he also gets a free passage to and fro. We'd like vastly to go home on the same terms, but as we cannot, we'll confine ourselves to wishing Mr. L. "bon voyage" and soon back.

A lady was robbed a few nights since by a man who secreted himself in her chamber until she had retired. The box containing her jewelry and containing her rouge were just alike, and the thief stole the wrong box. She looked pale on discovering her loss, but her colour came again the next day.

The fire at the coffin shop in Rosario the other day has fired the "jeunesse dorée" of that place with the noble ambition to turn 'Bomberos' 'en masse.' We have never known a successful amateur fireman except his Grace the Duke of Sutherland, and we only know him very slightly indeed. Still slighter are the chances of an amateur Fire Brigade succeeding in Rosario. If formed on the 'all officers and no soldiers' principle, with a dashing uniform, we have no doubt the corps would look well on paper and passable on parade, but this would not put out fires. The youth of Rosario may be admirable fire-eaters; but remembering the untimely fate of the fashionable Fire Corps started here about two years ago, a word of warning may not be amiss. That famous Brigade never got beyond gorgeous helmets and grand 'epées de geurre for the General, and a few of the superior officers.

Next Monday week, the Purification, called Candlemas Day in England, will be a strict holiday. The following day will be a Provincial Government fete, being the anniversary of the burst up of Don Juan Manuel Rosas.

The city tramways have had to fork out 7000 m|c in Municipal fines since the 1st of the month. The Recoleta line was the worst offender, and paid $3700 m|c for its little whistle.

A brave warrior of some Line regiment was arrested on Tuesday for beating a little child because it mimicked the fellow's manner of slouching along.

There were 70,000 exhibitors at the Vienna Exhibition, and 26,000 prizes awarded to them.

Going into a café, dining on the best of everything, and then surrendering to the Police as unable to pay, is now a favourite trick in town. A hungry Italian performed it on Tuesday, and is now in 'quod.'

The Inspector General of Telegraphs only asks for 3,000 pats. to repair the damage done to the telegraph lines in Entre Rios during the Jordan war. This is very moderate.

The papers by last mail say that the German Government has prohibited the reproduction of the Bazaine trial throughout the empire.

We learn from Rio that Krupp, the 'great gun' in the cannon-making line, has presented a small steel gun to the Emperor Dom Pedro, which his Majesty graciously accepted.

The Italian National Society held a very successful meeting on Sunday last, and appointed Dr N Romeo President and Mr. John Baptist Castaguino Vice for the current year.

Cedulas ruled a shade better to day, and closed ¼ over the opening price. For cash there was very little done, but for the end of the month over 300,000 sold. The brokers report a better feeling in the market to day, and some orders from outsiders.

The general stagnation of business consequent on the closing of the river ports is greatly complained of, and many parties anticipate another crisis if something be not done; for, what with ports closed, trains stopped, and nothing coming in or going out, things are approaching a deadlock.

The sales to day were as follows—

Cedulas—

Exchange rules at 49 to 49½, and a good deal offering at 49, but few takers. On Antwerp 5,24 to 25.

The Corcovado's mail's came up this morning, and were landed at the molehead at 1 p.m. The letters were out at 4 o'clock.

The news from Antwerp is said to be very good—large sales, and the stock much diminished. There are private telegrams in town to this effect.

Money the brokers reported a shade easier today, and a great disposition to take all the paper offering at 15 per cent., but it is almost impossible to get first class paper at this rate.

The Provincial Legislature last night ratified the modifications in the new Municipal loan; so we may look forward to this business being done now, and another Gas dividend paid next month. We believe the Italian Bank does the loan, the proceeds of which come right on the market.

The latest from Paraguay is important; the Rebels are at Villa Pilar and Villeta, and the battle may come off in about a fortnight It is presumed that the whole business will end in a protectorate, and this would be the best thing for the country.

The death of Mr. M. Murray of Freyre, was announced to-day. Deceased was well-known in barraquero circles as one of our most enterprizing Irish estancieros, the wool from his estancia being about one of the best known in the market. Deceased leaves large assets, about 6 or 7 millions currency.

The sale of 16,000 ar. wool by one broker out of deposit, was much spoken of, the price is said to be about 63. In the South market 13 carts ottered, and prices this morning rule fully 4 m|c over yesterday. About 60 carts in market and 13,000 ar. at station.

The sale of 2500 cases kerosene ex-Isabel is reported at 23 cents on board.

The sale of a salted hide cargo is reported, but price not stated.

Messrs. John P. Boyd and Co. have chartered the Greek brig Gerassimus Cappas to load maize at Rosario for the United Kingdom or Continent, at 30s per ton.

In our foreign exchanges received by the packet we find the following advices, which may interest our commercial readers—

"Mr. Younger, the brewer, has purchased for £14,000, Craven Lodge, Melton Mowbray, at one time the residence of the late Marquis of Hastings, and more recently inhabited by Mr. Coupland, Master of the Quorn Hounds."

The trade returns of Brazil which we published in a recent number have attracted immense attention in this market, and notwithstanding that nearly all our merchants are conversant with Brazilian matters, none were prepared for such splendid returns as those supplied by the *Jornal do Comercio* for the past year. The coffee crop of Brazil represents more than the whole export trade of this Republic, and as for the cotton crop, the figures are even still more startling; for we find that in 1860 the export of cotton was only 14,275 tons or one-third of what it reached in 1872, and now we have the export of Brazilian cotton ranking next to that of the United States, 800,000 bales; these figures are indeed marvelous, and show the splendid industrial resources of Brazil, whose exports for last year were 17 per cent over imports. When the Argentine trade statistics can show figures like these we need care little about the exchange or gold market; everything here will then be strong and stable, not uncertain and slippery as at present; had Brazil the magnificent emigration tide in her favor like Buenos Ayres, there would really be no measure to her prosperity, but her climate, except in the south, checks that; doubtless however that check will only prove temporary, for Brazilian statesmen aim at securing emigration and they rarely fail in anything they attempt.

Wools, hides and other produce are now coming down from Entre Rios fast; we note a vessel entered with some of the Duportal estancia wool, this is about the best wool in that province and is well-known in this market.

Dry hides in New York seem at last to have touched bottom; there are telegrams in town from New York announcing Montevidean hides at 28 cents gold, this means higher still for Buenos Ayrean.

The following is the prospectus published by the Secretary of the City Buenos Ayres Tramway Company, on calling for £95,000 on debenture stock:—

"Issue of £95,000, in perpetual debenture stock, bearing 6 per cent. interest, payable half-yearly on the 30th June and 31st December, being a portion of the amount authorised by the articles of association to be borrowed, viz. not exceeding one-third of the paid-up capital of the Company for the time being.

"Being the First Charge upon the Net Revenue of the Company.

"Tenders are invited for £95,000 in Six per Cent Debenture Stock of the Company.

"The Share Capital of the Company is £350,000 (in 70,000 shares of £5 each, 60,000 of which are fully paid, and 10,000 are to be fully paid on the 5th January next.

"The property of the Company consists of 28½ miles of tramway now working, and two miles shortly to be opened, running through the best streets of Buenos Ayres; extensive buildings; a farm of 2,500 acres; more than 1,000 horses; tram cars, machinery, &c &c.

"Income of the Company.—The original line of the Company were opened during 1871; the net profit for the year 1872 amounted to £22,000, and that for the first half of 1873 (on 17½ miles open) was £17,000, or at the rate of £34,000 per annum. The Company has recently purchased another existing line of tramway, 11½ miles in length, now forming part of the 28½ miles above referred to, and for the completion of the payment of which the proceeds of these debentures are to be applied. This new line is yielding a profit of upwards of £10,000 a year, thus, with the anticipated profit of the two miles still to be opened, increasing the net revenue of the Company to nearly £50,000 per annum.

"The annual interest on the debenture stock now to be issued will only amount to £5,700.

"The terms of tender are as follows;—

"The amount tendered for must not be less than £100, and must not include fractions of that sum."

The Western Railway train each morning is crowded with free passage emigrants going to the camp. Within the last week fully 2000 emigrants have gone out to the camp. Many of these poor people, ignorant that the Government gives free passages on the Western Railway, have walked out to the camp. At the rate things are going on, the camps will soon get thickly settled upon, our produce increased, and our estancieros' expences reduced.

Circulars of the new joint-stock building society were sent round to day. We advert to the scheme in our leading columns. The business looks a good one, if properly managed.

The news from the Uruguay is rather startling—a vessel called the Romulo, with a cargo of wine etc. from Buenos Ayres, has been seized by an Argentine war steamer, the Gualeguay. The captain of the Romulo, when overhauled, stated that he had no papers whatever, which indeed seems strange.

The captain of the Provecdor has published his statement respecting the landing of the emigrants on an island in the Parana. It seems that the captain is nothing to blame. He offered any passenger who disliked going ashore a free passage back to B. Ayres. We can't well see that he could do more.

The Post Office returns for the last year are out, and by them see that the balance of correspondence between Europe and the Plate is greatly in favour of the latter, 579,417 letters received from abroad, and 721,595 despatched. The yield of the department was 158,906 pats. against 81,000 disbursed; this shows well.

The Port Captain has chartered for port service the little steamer Anita, belonging to Messrs. Russell and Anderson.

News from the Banda Oriental is all about the great rains and floods out there; all the rivers swollen, and in Paysandu department some damage caused. In the harbour of Montevideo the other day there was almost an unpleasant business—Evans's boat ran alongside the Calderon, and was ordered into quarantine, Dr. Bond and some others on board; rather a disagreeable business.

Mr. Lindmark, Second in Command at the National Engineers Office, has received from Government 6 months leave of absence, with a first class free passage to Europe and back.

The National Government has answered No! down flat to the applications to settle upon the lovely, but howling islands of Apipe. The Minister evidently thinks that they are better as they are, than in the hands of 100 sturdy agriculturists.

In the Capitania Department of the Boca Mr. E. inclair has been named oficial.

The following important items we cut from our last Brazilian exchanges—

"Decree 5,507 promulgates the Postal Convent on between Brazil and the Argentine Confederation. All mail matter has to be prepaid, but will be delivered free in the country of its destination.

"Edward Serwank has obtained the concession of four square leagues of lands in Taquary, Rio Grande do Sul, at half a real per square braga, payable in 5 years, to be recorded in lots of 387,000 square metres to Belgian immigrants, at not over 6 reis the square braga, including survey and preparation. No government subsidy is given."

On the 18th of December an extraordinary meeting of the shareholders of the Western and Brazilian Telegraph Company was held in London, when the report on the new arrangements and agreements with the Platino and Brazileira and other companies was read, adopted and confirmed. The first section of the Platino cable is now about due; it is certainly about time. When we have the line from Chuy to Rio, then we may look forward to something more satisfactory in the way of telegraphic communication.

The Paso Molino tramway, Montevideo, is now paying its 16th dividend. It is really suprizing what handsome dividends the Montevidean tramways pay.

Application has been made to the Bolsa Board of Directors to open a lunch room on 'Change. We hear that it will be at once rejected as 'infra dig,' although we for two regard the move as a capital one.

It being an admitted fact, that "Money make money," the object of LA BIENHECHORA could not be better, since it opens a vast Saving Bank for the surplus or savings of the Public and by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband the small means, and, in the end, attain a competency.
It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHEORA DEL PLATA—an Argentine Company, whose own investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.
THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

Such advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the example of their firm in Montevideo, the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

IMPORTANT CAUTION—Ask for Rowland's Macassar Oil, and avoid all other cheap articles under the same or similar names as spurious imitations. Each bottle has a glass stopper instead of the cork as formerly. All with the cork are spurious imitations.
ROWLAND'S KALYDOR removes cutaneous disfigurements, freckles, and tan, and imparts a healthy and blooming appearance to the skin. During the heat and dust of summer especially, and in cases of sunburns and stings of insects, it is of the utmost use. Price 4s. 6d. and 8s 6d. per bottle. Ask for "Rowland's Kalydor."
ROWLAND'S ODONTO, or Pearl Dentrifice, preserves and imparts a pearl-like whiteness to the teeth, eradicates tartar and spots of incipient decay, strengthens the gums, and gives a pleasing fragrance to the breath. Price 2s 9d. per box. Ask for "Rowlan's Odonto."
ROWLAND'S ESSENCE of TYRE never fails to produce immediately a perfect change in red or grey hair, whiskers, eyebrows, &c., to a beautiful glossy and permanent brown or black, which colour remains so durable, that neither shaking nor perspiration can remove it. Price 4s., 7s, 6d, and 10s. 6d, per bottle.
All these articles have been used and justly, appreciated by all the Sovereigns and Courts of Europe, the Pope of Rome, and the aristocracy of the world, during the last 70 years, being of inestimable value to those who have once used them. They are sold by all chemists, perfumers, and bazzars throughout India, Australia, the Colonies, and South America.
